Information on Poster Sessions

Presentation of posters will take place virtually on our online platform. Posters will be available on the virtual platform for the duration of the conference and visitors will be able to leave comments and questions at any time, via the chat function.

Each poster is allocated to a one-hour poster Q&A session where the author should be available online for answering questions. The two poster sessions are as follows:

Poster session A: Wednesday 17:30-18:30
Poster session B: Thursday 08:00-09:00

In the scientific programme (see https://www.eaap2021.org/program), the posters are allocated to sessions of oral presentations. These sessions have two different time schedules, A and B, in order to avoid crowds for onsite participants during coffee or lunch breaks. Posters assigned to oral sessions with time schedule A will be in Q&A session A on Wednesday evening. Posters assigned to oral sessions with time schedule B will be in Q&A session B on Thursday morning.

The Q&A will take place via the chat function. During the allocated Q&A session, the author should be logged into the virtual platform in order to participate in the discussion live via the chat function. In this way, we hope to allow a dialogue between visitors and authors.

Shortly before the meeting you will receive an invitation by Liveforum to complete your registration for the virtual platform. In the case of poster discussions, the author does not require special 'speaker' status on the platform. On the platform, there will be a dedicated poster area where posters can be searched according to Q&A session, corresponding session of oral presentation and author (see screenshot below).
